## FARROAD FRD 18

**Super wear-resistant tyre with excellent formulation design can effectively avoid tyre's early damage and ensure a longer mileage.**

Excellent wear-resistant tyre, both formulation and structure design give you unexceptional surprise and it's economical.

### **Advanced structure design**

Using new nylon cap layer parcel without joints, effectively prevent sliding of belt layer, unusual stability can be seen in high-speed driving whatever steering or change lanes.

### **Excellent wear-resistance formula technology**

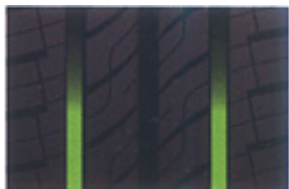

Optimized traditional wear-resistant formula make more suitable for rough road, longer mileage, more economical and green.

### **Key Features:**

### **3 wide longitudinal grooves**

3 wide longitudinal water drainage grooves provide excellent drainage performance, effectively prevent tyre lateral slipping, also can provide excellent handling performance and steering stability even on heavy rains.

### **Antimigraine grinding shoulder design**

Coherent shoulder patterns effectively avoid unusual wear, make more excellent handling and stability in straight driving, reduce noise emission.
