

Get the feeling  
**ENKEI Neo Classic**  
**MESH 4 Neo**

A modern reproduction of the ENKEI MESH4 design released in 1982.

A 2-piece version of ENKEI Neo Classic enables a wider range of customization.

Next-generation modular wheels with stateliness that cannot be achieved with monoblock wheels.

**Sizes:** 16 / 17 inch

**Colour:** Gold, Silver, Black

**Material:**

## Product Detail

### Revival Design

The design of MESH4 released in 1982 has been remade to match modern vehicles. The fine mesh design promises an elegant side view.

### Large Mesh Design

A powerful design that looks one size larger due to the mesh design that connects to the edge of the rim. The design that makes you feel on the face creates a feeling of a large diameter of 1 inch or more.

### Deep Rim & Order Inset

Deep rim shape / order inset correspondence

Uses a reverse rim. Depending on the combination, powerful setting with a maximum rim depth of 111mm is possible. Supports order insets unique to 2-piece wheels. We promise to provide the best customization in response to requests in 1mm increments.
