

RALLY RACING VAN

Rally Racing VAN alloy wheels, the new OZ wheel made in Italy for VANs and commercial vehicles. Update to **Rally Racing** wheels transforms them to Rally Racing VAN, specifically for VAN and commercial vehicle applications.

The OZ alloy wheels that have made history in global rally racing were chosen as the perfect contender to outfit VANs and commercial vehicles. Thanks to their **unique, sturdy design**, they can readily cope with the heavy loads typical of these vehicles.

Available in the following sizes:

- 7.5×18” 5×160 for Ford vehicles
- 8×18” 5×112 fir Mercedes and 5×120 for **Volkswagen** vehicles

The various sizes also come in different colour combinations. 7.5×18” comes in Matte Black + Silver lettering; Dark Graohite + Silver lettering; White + Red Lettering. 8×18” is available in two finishes: Matte Black + Silver lettering and Dark Graphite + Silver lettering.

In the 90’s OZ put in the best performance at the World Rally Championships, where it fitted tyres on the cars of some of the most important teams competing. One was Toyota team led by pilot Carlos Sainz who actually won his first world title in 1990. The wheel is white with a recognizable central “disc’ that sports the red OZ Racing logo written twice.

A factory brand, with an unmistakable design stemming from a specific functional choice to protect the braking system from rocks and stones.

The new Rally Racing wheel has the same distinguishing features, albeit updated. A new icon of style and performance, with prestigious, unique tradition and breath-taking technical features. Using its timeless look as the startig point, the new Rally Racig wheel has been given new exclusive details such as the spoke shape which overlaps with the central disc and gives the wheel a different look, by making it seem even larger and more aggressive. The central disc is flat and features the traditional OZ Racing logo written twice.

Product Details

Model	Monoblock
Design	Rally gravel design
Production process	Low pressure casting process + Heat Treatment
Material	Al Si 7 Mg
Characteristics	 
Certifications	   
Offset range	45-48
Width range	7,5 - 8
Holes	5
Diameter available	18”
