

RALLY RACING

The timeless and genuine racing icon is reborn. The waiting is over. Rally Racing, the wheel that made history in rally racing, is back with an even more modern and aggressive look. In the 90's OZ put in the best performance at the World Rally Championships, where actually won his first world title in 1990. The wheel is white with a recognizable central "disc" that sports the red OZ Racing logo written twice. The new Rally Racing wheel has the same features, albeit updated. Using its timeless look as the starting point, the new Rally Racing wheel has been given new exclusive details such as the spoke shape which overlaps with the central disc and gives the wheel a different look, by making it seem even larger and more aggressive. The central disc is flat and features the traditional OZ Racing logo written twice.

Rally Racing is available in 17", 18", and 19" and with a Race White + red lettering or Dark Graphite + Silver lettering finish.

Product Details

Model	Monoblock
Design	Rally gravel design
Production process	Low pressure casting process + Heat Treatment + HLT (19")
Material	Al Si 7 Mg
Characteristics	  
Certifications	   
Offset range	18 - 53
Width range	7,5 - 8
Holes	4 - 5
Diameter available	17", 18" and 19"
